**HUNTERS RUN LAUNCHES \$18.4 MILLION RENOVATION
OF ITS CHAMPIONSHIP SOUTH COURSE
Renowned Architect, Beau Welling Design, Tapped To Lead Major Revamp**

Boynton Beach, FL, June 01, 2025 -- Larry Savvides, Hunters Run Country Club's Chief Operating Officer and General Manager, announced that the membership approved an \$18.4 million renovation of the Club's championship 18-hole South Golf Course (one of three courses at Hunters Run). Construction is scheduled to begin in late January 2026 and is anticipated to be completed by January 2027.

In making the announcement, Richard Kapner, Hunters Run Club President, noted that the South Golf Course was last renovated in 2001. "Take the toll of time and year-round play and combine it with the dramatic rise in golf rounds, and our South Golf Course has served our golf community well over the last 24 years. But the time has come to breathe new life into our signature course. We're excited about our second course revitalization and being able to provide our members with another renewed playing experience," he said.

Savvides pointed out, "The renovation will enrich every aspect of our golfers' experiences while ensuring the course's playability and aesthetics. Establishing a reputation as having 54 of the best private golf holes in Florida is important to our Board and membership."

The renovation will address multiple facets of course design and infrastructure, including:

- Improved course conditioning and consistency
- More flexible and strategically designed teeing areas
- Improved hole designs that encourage strategic play
- Greater playability and forgiveness for a broader range of golfers
- Modernized features that correct outdated or overly penal course elements
- Maintaining an established challenge for low-handicap players

To bring this all encompassing vision to life, Hunters Run has partnered with Beau Welling Design (BWD), Inc., a firm known for its thoughtful and dynamic approach to golf course architecture. With over a decade of global design experience, including collaborations with golf legends Tom Fazio and Tiger Woods, Beau Welling brings a blend of innovation and tradition to every project. BWD is currently working with Augusta National on some of its renovations.

The South Golf Course renovation is another step in Hunters Run's "Progress in Motion" campaign. Savvides explains, "Our mission statement drives our motives where we strive to be a country club community dedicated to providing exceptional facilities and memorable experiences. And that is exactly what we are doing."

#

A luxury country club community with 1,649 residences in 23 communities, Hunters Run is located on 990 beautifully landscaped acres in East Boynton Beach, bordering Delray Beach. Minutes from the Atlantic Ocean beaches, this private club community offers a variety of home styles, from condominiums and villas to estate homes. It also provides 17 lodge rooms to accommodate members' guests. Hunters Run is well-known for its three unique 18-hole championship golf courses, two driving ranges, and a short-game area. Its athletic facilities also provide members with 18 Har-Tru tennis courts, 12 USAPA pickleball courts, and a fitness center that includes wellness programs, personal training, physical therapy, and group classes. The club's full-service spa and salon offer a complete portfolio of services. The heart of Hunters Run is its resort-style clubhouse, featuring a beach-entry pool, expansive outdoor lounge spaces, a poolside bar, and snack windows. Unique to Hunters Run are its six restaurants that offer everything from fine to casual to al fresco dining.
